JORDAN MCGEE

Software Development • Cloud & AI • Cybersecurity
Anderson, SC | github.com/1tz-j0rdan

PROFESSIONAL SUMMARY

Computer Scientist and engineering leader pursuing a master's degree in Computer Science, with hands-on experience in Python development, software testing, electrical systems, and cross-functional technical projects. Lead a seven-person electrical team; bring a practical, systems-oriented approach to software, cloud, and cybersecurity roles.

TECHNICAL SKILLS

Programming: Python, C, C++, C#, Java, R, SQL

Software & Data: Git, GitHub, VS Code, Jupyter, automated testing, CI workflows, Excel, Access, Power BI

Engineering: Altium Designer, MATLAB/Simulink, SolidWorks, AutoCAD, Civil 3D, PCB design, telemetry, wiring integration

SELECTED SOFTWARE PROJECTS

Reusable Python Utility Package | *GitHub: P01-12-reusable-python-utility-package*

- Built a reusable Python package with structured modules and developer tooling to support maintainable utilities.

File Organizer | *Python* | *Automation*

- Developed a command-line file management workflow; verified functionality with 21 passing tests and clean Ruff checks.

Unit Conversion Toolkit & CLI Calculator | *Python* | *CLI* | *Testing*

- Implemented command-line utilities with modular logic, automated tests, and repository-based version control.

EXPERIENCE

Electrical Division Lead | Clemson Formula Racing | *Oct 2024 – Present*

- Lead a seven-person electrical division within a roughly 50-member multidisciplinary racing organization.
- Coordinate PCB development, wiring and electrical integration, telemetry, troubleshooting, and vehicle maintenance.
- Manage division budget, work scheduling, and weekly meetings; coordinate work across technical groups.

Construction Engineering Aide III Intern | Fluor Corporation | *May 2024 – Aug 2024*

- Supported electrical and control systems activities at the Savannah River Plutonium Processing Facility project.
- Worked within formal industrial engineering and construction processes to support project execution.
